DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on November 13, 2000 is being considered by the examiner.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

3. The drawings were received on May 26, 2001. These drawings are acceptable.

Allowable Subject Matter

4. Claims 6-10 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly disclose a synchronous memory device as claimed, a synchronous integrated memory for holding data and to be connected to an external clock producing an external clock signal, the memory comprising: an output control connection carrying an output control signal having output levels including a given level; a control unit outputting a first internal clock signal to lead an external clock signal by a given phase shift, the first internal clock signal having first signal levels including the given level; a clock generator generating a second internal clock signal synchronized to the external clock signal and having second levels including the given level; a counting unit having an activation connection carrying an activation signal defining an activated state; the counting unit starting a counting process for recording a number of successively following given levels of the first internal clock signal as soon as the second

internal clock signal for a first time assumes the given level while the output control signal is at the given level, an output circuit connected to the activation connection, the activated state starting an output process for reading data out of the memory in synchronism with the first internal clock signal; the output circuit outputting the data at the data connection with the given phase shift with respect to the first internal clock signal and in synchronism with the external clock signal; and the counting unit activating the output circuit through the activation connection as soon as the number of successively following given levels of the reached a predetermined value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
